

Operation Flowchart

Notes:
 With dryer on, LED 1 will light up within a few seconds. More LEDs will light up as your vents slowly gets clogged. When the back pressure is so great all the LEDs will light up and the detector will enter the Alarm Mode indicating a serious blockage.

Alarm Mode:
 LED BAR flashes on and off alternating with Blue logo and buzzer beeping. Pressing the button in alarm mode will mute the buzzer.

Once in alarm mode, even if you turn off your dryer, the detector will stay in alarm mode, reminding you to clean your vents. The speaker can be muted by pressing the button for at least one second.

Test Mode:
 Test Mode is invoked by two long presses of the button. Flashes LED Bar, Blue LEDs and buzzer beeps then returns to previous state.
